

Gov Tools DRep Profile: LatAm Cardano

Objectives:

Prioritize user trust, security, and accessibility of the blockchain. Strengthen Cardano's resilience via decentralization, immutability, security, scalability, and interoperability. Drive LatAm growth by increasing transactions, builders, users, institutional adoption, and public awareness. Champion Cardano's long-term viability.

Motivations:

Safeguard user trust, ensuring Cardano's longevity. Strengthen resilience through core principles. Amplify LatAm's voice in global governance. Leverage Cardano for positive impact in LatAm, addressing real-world challenges.

Qualifications:

Operating since Nov 2021, we bring expertise to the DRep role. We were key contributors to CIP 1694, Minimum Viable Governance, drafted constitution, and aided ratification. Members hold Intersect MBO roles. We delivered Education, Marketing, and tooling initiatives. We are technically savvy, with experience in governance, development, and community building, dedicated to Cardano's success.

DRep Extended Profile: LatAm Cardano

Objectives:

- Objective 1: User-Centric Governance:
 - Prioritize proposals that enhance user trust, security, and accessibility within the Cardano ecosystem.
 - Advocate for decisions that ensure Cardano remains a reliable and attractive blockchain for users in perpetuity.
- Objective 2: Resilience and Long-Term Sustainability:
 - Support initiatives that strengthen Cardano's resilience through enhanced decentralization, immutability, and security.
 - Promote proposals that foster scalability and interoperability, ensuring Cardano's long-term viability.
- Objective 3: Regional Growth Metrics:
 - Favor initiatives that demonstrably increase:
 - Number of transactions within the LatAm region.
 - Number of builders developing Cardano-based solutions in LatAm.
 - Number of users adopting Cardano within LatAm.
 - Number of institutions adopting Cardano-based solutions in LatAm.
 - General public awareness of Cardano in LatAm.

Motivations:

- Motivation 1: Upholding User Trust:
 - To safeguard the trust of Cardano users by prioritizing proposals that ensure the network's security, stability, and longevity.

- To contribute to the development of a blockchain that users can rely on for generations.
- Motivation 2: Strengthening Resilience:
 - To champion the core principles of decentralization, immutability, security, scalability, and interoperability, which are essential for Cardano's resilience.
 - To ensure the Cardano blockchain remains a leader in the blockchain space.
- Motivation 3: Harness Cardano's potential for Latam's development:
 - To amplify the collective voice of the Latin American Cardano community and ensure its representation in global governance.
 - To foster collaboration and knowledge sharing among community members across the region.
- Motivation 4: Driving Positive Impact:
 - To leverage Cardano's technology to create positive social and economic impact in Latin America.
 - To support projects that address real-world problems and improve the lives of individuals and communities.

Qualifications:

"The LatAm Cardano Community, operating since November 2021, brings a wealth of experience and expertise to the DRep role. We have actively contributed to the development of the CIP 1694 governance framework hosting 11 workshops all across Latin America and the Latam Governance Summit in Punta del Este (<https://github.com/latamcardano/CIP1694Workshops>) we played a key role in Edinbrugh's CIP1694 global workshop where we introduced concepts like the constitution, Minimum Viable Governance and Net Change Limit.

We played a crucial role in drafting both the interim and draft constitutions (one of our members is listed as one of 18 [drafters](#)) we have collaborated closely in the design and execution of the constitutional ratification process, our members were elected as [delegates](#) to represent their countries and helped shape the constitution in Costa Rica and Kenya constitutional workshops as well as in the constitutional convention held in Buenos Aires and Nairobi in december 2024 demonstrating our commitment to shaping Cardano's governance structure. Our members hold key positions within Intersect MBO, providing invaluable insights into the ecosystem's development. We've also been actively supporting the Catalyst community spreading the program through regular educational Town Halls held in local language, as proposal reviewers, in challenge teams and coaching proposers. Beyond governance, we have made significant contributions through impactful initiatives in Education, Marketing, and tooling, demonstrating a holistic understanding of Cardano's needs. Our community boasts technically savvy members, ensuring a deep understanding of the underlying technology and its implications for governance decisions. This comprehensive experience, spanning governance, development, and community building, positions us as a highly qualified DRep, dedicated to the long-term success of the Cardano ecosystem."
